CONGRESS THIS WEEK

Important Measures Will Be Passed
by Both Branches.

THE NEW ARMY BILL

Senate Will Dispose of That Bill Early
in the Week—The Reapportionment Bill the Contention
in the House.

Washington, Jan. 7.—The senate will continue to give practically uninterrupted attention to the army reorganization bill until that measure shall be disposed of. The bill will pass no one doubts and the general opinion is that it will go through some time during this week.

There are several committee amendments yet to be considered including those relating to the army canteen and veterinary corps. It was supposed at one time that the canteen provision would cause prolonged debate, but the best opinion now is that comparatively little time will be spent on it. A number of amendments suggested by individual senators will be considered at great length and some speeches on the bill as a whole are yet to be made.

The provision of the bill authorizing the investment of Filipinos in the army of the United States is among the features which are almost certain to come up for sharp attack.

With the army bill out of the way, the legislative, executive and judicial appropriation bill will be taken up and after it other bills that are in shape to be considered.

The ship subsidy bill will be restored to the calendar as the regular order of business, after the army bill is passed and it will be pressed when no open bills are awaiting consideration.

FIVE TIMES SENATOR.

Credentials of John T. Morgan of Alabama Before the Senate.

Washington, Jan. 7.—At today's session of the senate Mr. Pettus of Alabama presented the credentials of his colleague, J. T. Morgan, elected from that state for the fifth time. His term of six years will begin March 4, 1901. The credentials were filed.

The resolutions of Senators Bacon and

SENATOR JOHN T. MORGAN.

Pettigrew relating to declination of the executive to send to the senate the report of D. Lawshe as to the postal frauds in Cuba, went over.

Consideration of the army bill was resumed.

The House.

Washington, Jan. 7.—The consideration of the reapportionment bill was resumed today in the house. Indications point to a final vote on the measure tomorrow, but the fight over the basis of apportionment is a bitter one and the debate may be prolonged. Mr. Hopkins is still confident his bill will carry, but in order to pull it through he is now ready to concede an increase of three members to cover the major fractions of the states of Florida, Colorado and North Dakota. If his bill passes it probably will be with this modification.

The opposition is very aggressive, but on the surface seems to lack the strength necessary to carry the Burleigh bill. There are forces at work, however, by which the opposition hopes through the agencies of Senator Quay, Senator Platt of New York and Senator Lodge of Massachusetts to swing the delegations of New York, Pennsylvania and Massachusetts into line and if successful the Hopkins bill may suffer defeat.

Mr. Crimier of Indiana proposes to move to recommit the bill with instructions to reduce the representation of the southern states, but there is no idea that such a proposition will prevail.

After the disposal of the reapportionment bill, the river and harbor bill will be taken up. The remainder of the week will be devoted to appropriation bills.

Vote on Reapportionment Bill.

Washington, Jan. 7.—Speaker Henderson today was again detained

at home by illness and Mr. Dalzell of Pennsylvania, presided over the house.

Before the debate upon the reapportionment bill began it was agreed that general debate upon the bill should close tomorrow at 3 o'clock and the final vote will be taken before adjournment tomorrow.

Dubois Nominated.

Boise City, Jan. 7.—Ex-Senator Fred T. Dubois was nominated by joint caucus for United States senator.

NO SATISFACTION YET.

Venezuela Still Letting Natives Invade the Asphalt Company's Plant.

Willemstad, Curacao, Jan. 7.—United States minister at Caracas, Venezuela, Mr. Loomis, according to the latest advices received here, has not succeeded in obtaining justice for the New York and Bermudez Asphalt company in its dispute with the local authorities. The situation is regarded as critical. Three American warships are either at Lagunayra or on the way. They are the Buffalo, Hartford and Scorpion. The Americans are complaining at the alleged delay in obtaining protection for their interests. Local authorities, it is said, have encouraged the natives to invade the company's plant.

Lincoln's Birthday.

New York, Jan. 7.—General O. O. Howard says that President McKinley will be one of the speakers at the celebration of the birth of Abraham Lincoln, to be held at Carnegie hall the evening of Feb. 11. Governor Odell will preside. Colonel Henry Watterson of Louisville will deliver a lecture on Lincoln and Fred Brooks will read a poem on Lincoln.

To Rebuild Destroyed Missions.

New York, Jan. 7.—Children in the Sabbath schools of the Congregational churches in the United States have been asked to contribute \$50,000 for the rehabilitation of the recently destroyed Chinese missions. "Missionary Sunday," will be on Jan. 20. The 5604 churches of the denominations, with their 740,000 scholars will then make a united effort to raise the required sum.

PHILIP ARMOUR DEAD.

Passes Away After an Illness of
Two Years' Duration.

AMASSED MILLIONS.

The Death of His Son a Year Ago
Made Him Despondent—His
Only Son Will Take Charge
of His Immense Business.

Chicago, Jan. 7.—Philip D. Armour
died at his residence in this city at 5:45
o'clock Sunday afternoon. The end
came after two years of illness during
which time Mr. Armour visited Ger-
man baths, passed the cold months in
southern California and devoted himself
largely to an attempt to restore his
health, which, however, had been
broken never to be regained.

For several weeks the millionaire had
been living at the old family home in
Prairie avenue, the usual trip to Cali-
fornia not having been taken this win-
ter. He came down to the office in the
Home Insurance building but seldom,
and as the cold increased he did not
come at all. It was understood in the
office that he had had an incipient at-
tack of pneumonia but it was given out
no later than a week ago that he was
on the road to recovery. For several
days death had been feared as the out-
come by the close associates of the great
captain of industry. When death came
his grand children who had so close a
place in his heart were at the family
residence as was J. Ogden Armour, the
surviving son.

Mr. Armour had lost strength steady-
ly from day to day since the commence-
ment of the winter. The firm grip he
had so long maintained upon the busi-
ness of Armour & Co., whether at the
office or thousands of miles away, slowly
relaxed. Reports no longer interest-

PHILIP D. ARMOUR.

ed him as they were wont to do during
the first months of his declining health.
The sudden death of his son and name-
sake nearly a year ago, hung heavily
on him during the closing months of his
life. In fact, he never recovered from
the shock he experienced from that
event. It stopped his progress toward
recovery in his winter home at Pasade-
na, and its sorrow remained fresh until
the end.

After the death of P. D. Armour, Jr.,
the vast interests of Armour & Co.,
which had been carried on as a copart-
nership, were incorporated under the
old name of Armour & Co. This was
to provide greater stability in case of
death, and made no change in the prac-
tical ownership of properties.

So carefully had the plans of the fu-
ture been made that the death of Mr.
Armour will have little effect on the
outward working of the great enterprise
with which he had been so closely iden-
tified. It is said all the Armour prop-
erties will be held intact until the
grandchildren come of age.

Estimates of the value of the Armour
property run from \$10,000,000 to \$20-
000,000. This of course does not include
the \$15,000,000 or \$20,000,000 owned by
the younger members of his family.
For years every enterprise he was inter-
ested in has been making immense prof-
its. His holdings of stock have all ad-
vanced largely during the last three
years.

Philip D. Armour, who was in his
69th year made his own life on lines
unique and wholly original with him-
self.

From a not over rich farm in Oneida
county, New York, to the position of
paying more freight and controlling
more provisions than any other man in
the world, were the two extremes of
his life.

The ancestral Armours were Connect-
icut people, but Philip Armour was not
born until after the family had moved
to Stockbridge, N. Y. His birth date
was May 16, 1832.

Mr. Armour first started in actual
business at Milwaukee, Wis., as a gro-
ceryman. He in 1877 established his
pachery at Chicago.

The property interest of Mr. Armour
is estimated at \$150,000,000.

Mr. Armour married Miss Malvina
Belle Ogden, daughter of Jonathan Og-
den of Cincinnati in October, 1872.
They have had two children, Philip D.
Armour, Jr., who died a year ago, and
J. Ogden Armour.

PATRICK NOT INDICTED.

His Lawyer Confident He Will Be Ac-
quitted of the Charge.

New York, Jan. 7.—Although Albert
Patrick has not yet been indicted in
connection with the death of William
Marsh Rice, the eccentric millionaire
whose estate is involved in contest, his
lawyers are actively preparing to defend
him against the charge of murder, on
which he has been locked up in the
Tombs since last September.

Marx F. Harby, who is looking after
Patrick's interests, in the civil contest
over over the Rice millions, says, he
has sent a letter to Assistant District
Attorney James W. Osborne, which
may have an interesting bearing on the
case.

It is assumed by Patrick's friends that
when the district attorney decides to
lay the case before the grand jury, an
effort to indict Patrick for the murder
of Rice will be made on the statement
of the late millionaire's valet, Charles F.
Jones, that he saw Patrick holding a
towel over Rice's face a short time be-
fore the millionaire died.

Mr. Harby said that he had been con-
sulted by a person whose testimony the
assistant district attorney desired to ob-
tain, and that he had written to Mr.
Osborne in connection with the matter.
"I told Osborne," Mr. Harby said,
"that when the time came we would be
prepared to disprove the statements of
the valet (Jones) by three reputable
witnesses. We have three witnesses by
whom we can prove conclusively that
Patrick was not in Mr. Rice's apart-
ments at the time Jones says he looked
into the old gentleman's room and saw
Patrick stooping over Rice and holding
a towel across his face.

"These witnesses will prove a com-
plete alibi for Patrick. They will prove
that he not only was not in Mr. Rice's
apartments at that time, but they will
show exactly where they saw him at the
time indicated by Jones."

Mr. Harby said he had as yet received
no reply from Mr. Osborne although he
seemed not to be surprised at that fact.
He insisted that his client would be vin-
dicated when the case came up for set-
tlement.

Captain H. T. Patrick, the aged father
of the accused man, has just returned
after making a visit to this city to in-
quire into the case. Captain Patrick,
who is 62 years of age, came from his
home in Austin, Tex., called on his
son in the Tombs prison and consulted
his lawyers. Mr. Harby said that Pat-
rick's father, after going over the case
with his lawyers, became satisfied the
prosecution would fail and returned to
his Texas home confident as to the out-
come.

Crowe Completely Disappeared.

Omaha, Jan. 7.—Despite the big re-
ward for Pat Crowe, the alleged abduc-
tor of Eddie Cudahy, he has disappear-
ed, leaving no trace behind him. There
is not even the slightest clew to his
whereabouts.

In a letter mailed at Lincoln a writer,

formal offer to turn states evidence

tee has been made by the chief of police

General Cavanaugh Dying.

New York, Jan. 7.—Brigadier General
James Cavanaugh is dying from old age
at his home in Brooklyn. He has been
ill for several weeks. Extreme uncton
was administered to him late Sunday
night. General Cavanaugh, who is 76
years of age, was born in Ireland, and
came here when a young man. In 1854
he joined the Sixty-ninth regiment and
at the outbreak of the civil war went
with it to the front as a captain. He
was made a major for gallant conduct.
At the close of the war he was acting
colonel of the Sixty-ninth.

President Has a Cold.

Washington, Jan. 7.—President Mc-
Kinley suffered from a slight cold this
forenoon and denied himself to all
callers. His cold is not serious and
will not interfere with the reception to
the diplomatic corps to be given at the
White House Wednesday night. Presi-
dent and Mrs. McKinley have given up
a trip to Canton Thursday where they
were going to attend the funeral of the
late assistant paymaster of the navy,
Barber, who was a nephew of Mrs. Mc-
Kinley.

Roosevelt Goes Hunting.

New York, Jan. 7.—Theodore Roose-
velt has left for his hunting trip in the
west. The exact boundaries of the
hunting ground where he intends to
look for big game he has not revealed,
although he hints that they are in Colo-
rado. On his way he may visit Wash-
ington for a short stay. The vice-presi-
dent elect will not make his home in
that city, however, until early in
March, a few days before the inaugura-
tion.

Health and Beauty

For generations women have been
taught that "beauty is only skin deep,"
but, like many proverbs, that will not stand.
Beauty is blood deep. There can be no
beauty without health. Our grandmothers
lived closer to nature than we do, and they
were so sheltered by their home life that
health and beauty were theirs naturally.
Skin foods, freckle lotions and face bleaches
were unknown commodities. But there has
been a great change in the life of women
since then. With broader education and
larger opportunities, she has developed
mentally at the expense of her health. From
the quiet duties of home she has gone forth
until now we find her in many avocations of
life, which prove too great a tax on her
vitality. How sad it is to see the cheek
robbed of its color and the eye of its fire.
These symptoms nearly always show de-
rangements in the delicate feminine organ-
ism. They don't call for bleaches or paints
or powders, but for a remedy that will make
the afflicted organs strong and well. Wine
of Cardui is just such a remedy. Women
broken in health and spirit have been made
healthy and happy by this Wine. No one
should give up to the "blues" until this reliable remedy has been tried. It has
proven a blessing to other women and will not disappoint you. It brings that
buoyancy of spirit, elasticity of step and lightness of heart which is the corner
stone of beauty. A healthy woman is always beautiful.

Westville, February 4, 1899.
I feel that I must say a few words in praise of the Ladies' greatest friend,
Wine of Cardui. It is the most wonderful remedy that I ever tried. I have been a
sufferer for years, at times being confined to my bed two or three days each month.
A friend recommended Wine of Cardui, and since I have taken it I have been
greatly relieved. I intend to continue to take it, for I know it is as recommended.
I will use every effort to get others to use it. Mrs. MARY E. COOLEY.

DEPORTING FILIPINOS.

MacArthur Sending Some of the Leaders to Guam.

TO BE HELD THERE.

MacArthur Believes This Is the Best Way to Get Rid of Their Influence — Thirty-Seventh Regiment Coming.

Manila, Jan. 7.—General MacArthur has ordered the deportation of Generals Riera, Del Pilar, Hizon, Llanera and Santos to the island of Guam. Nine regimental and four subordinate officers with eight civilians, including Trias, Tecson and Mabini, notorious assistants of the insurrectionists, also have been ordered deported. It is General MacArthur's intention to hold most of the active leaders of the rebels who have been captured in Guam until the resumption of the condition of peace has been declared.

The first municipal election was held successfully at Baguio, province of Benguet, Saturday. Igorrotes took part in the election. Filipinos in Manila have been enjoying recently novel experience in holding free open political meetings. Most of the addresses at these meetings were made by former officers of the insurgents, all of whom asserted that the best way of securing personal liberty is to accept the liberties guaranteed by the constitution and the government of the United States, which is what American sovereignty stands for. The audiences were interested many of those attending the meetings signed the Federal party declaration. Construction of the rebel prison at Olongapo, in addition to those at Manila will be begun shortly.

Thirty-Seventh Coming Home.

Manila, Jan. 7.—General MacArthur, accompanied by his staff, reviewed the Thirty-seventh regiment of volunteer infantry on Luneta Field this afternoon. All the companies were together for the first time since the regiment landed here. After the review the regiment was drawn up in close order and General MacArthur in a farewell address congratulated the officers and men on their bravery, discipline and judgment, concluding his remarks with a hearty "God bless you, comrades."

The Thirty-seventh will sail for home on the transport Sheridan on Thursday. More than half of the men and many of the officers came from Tennessee.

WON AND LOST.

British Defeat the Boers and the Boers Whip the British.

London, Jan. 7.—Reporting to the war office under date of Jan. 6 General Kitchener says:

"Saturday Babington engaged Delarey's and Stenkamp's commandos at Naanwapoort. The enemy was forced to retire to the northwest. Our casualties not yet received, but are reported slight. A Boer doctor admitted that 20 Boers were killed or wounded. Commandant Duprez was taken prisoner."

"It appears from the reports of the wounded who have arrived at Heilbron that a detachment 130 strong belonging to Knox's command came in contact with a superior force near Lindley. I regret to say Lieutenant Laing, 2 officers and 15 men were killed and 2 officers and 20 men were wounded. No details from Knox of this action."

The Naanwapoort mentioned in Gen. Kitchener's dispatch must not be confused with Naanwapoort Junction, Cape Colony. There are several Naanwapoorts. Possibly the scene of the fight is the Naanwapoort on the railroad between Potchefstroom and Fredericksstad, Transvaal.

POINTED TO MONTEREY.

How the American Consul at Hong Kong Forced the Chinese Officials.

Tacoma, Jan. 7.—The steamship Tacoma brings news from Hong Kong that the American consul at Canton has required the viceroy of Kwang Tung to suppress several seditious newspapers, which are being circulated throughout Canton, advising natives to rise against foreigners. Some objection was made when consul of the United States protested. He pointed to the coast defense vessel Monterey, lying in the harbor as evidence that his wishes must be respected. The viceroy then gave orders to suppress the papers and arrest any one found selling them. The present serious situation in Canton is regarded as due largely to influence of these papers. Everywhere there is a strong undercurrent of hatred to foreigners.

Will Not Pay Fare.

Vancouver, Jan. 7.—The demand of the imperial authorities that all mounted police recruited here for South Africa pay their fare to Cape Town, and submit to inspection by English officers, all ideas of raising a corps in British Columbia have been abandoned unless the men's passage will be paid and the men inspected by Canadian officers.

Wrecked Passengers Rescued.

New York, Jan. 7.—The little Spanish steamship San Augustine has been wrecked on a small islet in Smith channel, Straits of Magellan. The British steamship Coya, which arrived Sunday night, saved the passengers and crew, 103 in number, from attack by pirates of the coast and landed all hands in Punta Arenas.

SUBMARINE BOATS.

Despite an Adverse Report Some Will Be Constructed by the Navy.

Washington, Jan. 7.—Notwithstanding the adverse report made by the board of construction, the advocates of the Holland submarine boat will make a strong effort to attach an amendment to the naval appropriation bill authorizing the 20 additional vessels of this type.

France now has five submarine boats in service. Eight were authorized in 1899 and two last May, and the budget for 1901 calls for eight more, making a total of 25. The United States has one in commission and seven under construction, sufficient in the opinion of the board for experimental purposes and to demonstrate what their value will be for war purposes.

In England the admiralty continues to oppose submarine boats and is making no experiments, though it is reported that some are contemplated. Spain has laid up the Peral, a submarine boat with which numerous experiments have been made without altogether satisfactory results. Russia, Italy and Japan are watching the work of other nations in the submarine field. The subject is being studied in Germany, where one boat is being constructed for experiment. The United States and France are the only powers which are building submarine boat fleets.

Hearings will be given by the senate and house naval committees in regard to the "increase of the navy," to be voted at this session, and the men interested in the Holland boat will ask officers who have spoken favorably of the Holland's performance to appear and give their views. The department will urge that if congress determines to authorize additional submarine boats all inventors will be given an opportunity to enter the competition for government contracts.

EIGHT LIVES LOST.

Men Caught in a Fire Trap at Minneapolis and Smothered by Smoke.

Minneapolis, Jan. 7.—Eight men lost their lives in a fire at 115 Washington avenue at 3 o'clock Sunday morning which had its origin in the rear of the Standard Furniture store. The men were overtaken by an intense volume of smoke in the Harvard hotel, which occupies the second, third and fourth floors of the building and death in every instance was due to suffocation. The fire was discovered by Charles Hanson as he was about to go to his room on the second floor. He immediately apprised George O'Connor, the night clerk, and the two men set about to awaken the lodgers.

Nineteen of the 27 lodgers were successful, but the others were unable to beat their way through the smoke succumbed and fell in their tracks where they were found by the firemen. Many of those who escaped came staggering out on the snowy sidewalk like drunken men, barely making their way through the deadly smoke and heat and only partially clad.

The loss on the building and contents will not exceed \$5000.

TEXAS LEGISLATURE.

The Regular Session Begins Tomorrow at the Hour of Noon.

Austin, Jan. 7.—The Texas legislature will meet in regular session at noon tomorrow.

The senators and representatives are coming in by every train and most of them will have arrived by tonight. They no sooner arrive than they are besieged by candidates for the several clerical positions that are to be filled in the respective branches of the law making body.

There is a pretty contest on hand for chief clerk of the house and the indications are that two candidates have about an equal chance of winning. The contestants for the place are Lee J. Rountree of Georgetown and James Hays Quarles of Waco. There is also a close contest for sergeant-at-arms of the house, but the prospects are favorable for Tip Jones' election to that position.

A Feature of the Inauguration.

Washington, Jan. 7.—A distinctive feature of the inauguration of President McKinley if the plans now under way are carried out, will be the large representation of the colleges and universities of the United States in the line of parade for the first time. Invitations to the presidents of more than 400 American institutions of learning requesting that delegations be sent to represent their respective institutions in the inaugural parade. The different college clubs and societies are expected to come as delegations. There will be no maximum or minimum limit to the size of each delegation, the only requirement being that each body shall be uniformed or decorated so as to display its college colors.

Americans Captured.

Manila, Jan. 7.—Private George H. Ray, of engineer corps and his assistant, Private Lyons of company K, fifth infantry, five scouts and two native policemen, have been captured while on their way to Batavia, by the insurgents. On receipt of the news the American column was despatched against the Filipinos, but failed to overtake the party.

Fired by Burglars.

Paris, Tex., Jan. 7.—The Frisco depot at Grant, I. T., 20 miles north of Paris, was destroyed by fire Saturday night. It is supposed to have been first robbed and then set on fire. John Larcey, the station agent, would have perished in the flames but for his faithful bird dog awakening him.

Obituary.

Mrs. Beulah Brogdon wife of Mr. G. H. Brogdon died at the home of Mr. and Mrs. G. W. Brogdon Wednesday January 2, at 1 o'clock a. m.

Mrs. Brogdon had been sick for several months and while her death was not unexpected yet it was a shock to all her acquaintances. Every comfort available and the best of medical attention were given her, but for all that she passed out of our midst to her maker. She leaves a husband, daughters and father to meet her in heaven. She was a good christian woman, dutiful wife and a kind mother. She was laid to rest in Alexandria Cemetery, Wednesday evening at 4 o'clock.

Some sunny spot in those fair fields Needed the presence of an added flower, A stately angel came at night: At morn the rose had vanished from our brower. Where stood our rose, our lily, there is a grave! Blank, silent, vacant; but in heaven above— Like a new star out blossomed in the skies, The angels hail an added flower of love.

To the grieving husband and father: We find it impossible to comfort them by words, we can only say: Drop not, pant not by the way— Our father says you shall meet your loved one in a land of perfect day! A Friend.
